The jury in the case of Sanders vs. the Daggs Brothers failed to agree and were discharged last evening without rendering a verdict. It is said that the jury stood ten to two in favor of the plaintiff.

It is stated that Colonel Inman, who has the contract for constructing the city water-works, has written to parties in Prescott signifying his ability and willingness to build our branch railroad. While in the East, Governor Frittle met him for the purpose of discussing the proposition.

The Milligans are dissatisfied with the result of the baseball game last Saturday and have concluded to cross back again with the Rifle nine on Saturday next in West Prescott. Both sides have gone through a hard course of practice, and the contest promises to be interesting and draw many admirers of both clubs.

## THURSDAY.

The City Council continues to labor as a board of equalization.

Justice Marshall, of Flagstaff, left for that city this morning.

The Good Templars are contemplating giving a series of dramatic entertainments.

C. S. Hutchinson & Co. have received a new and improved machine for manufacturing soda water.

Judge W. H. McGrew will serve as one of the Trustees of School District No. 1, if the voters so desire it.

Frank Murphy left this morning for Phoenix. While absent he will make a general tour of the southern portion of the Territory.

It is estimated that the loss to the parties who imported and purchased the diseased bulls in Chino Valley will not fall short of \$12,000.

An outdoor drill will be given by the Milligans this evening. All members of the company should be promptly in attendance.

Jailor Hickey is giving the Court House a general overhauling and removing the dirt which accumulated during the term of court.

The case of Hargrave vs. Mueller was up before Judge Noyes to-day, but was continued until to-morrow when it will be tried by a jury.

Another Democratic candidate for Sheriff is in the field. "The combat deepens," but only one "brave" is destined to get there all the same.

The Board of Supervisors were to-day engaged in auditing and passing on bills against the county. The Board will probably adjourn on Saturday.

Harry Darlington's business chart of Prescott has been issued. It is very neatly gotten up and reflects credit on Mr. Darlington's taste and enterprise.

Miss Emma Horne, one of the most fascinating and vivacious young ladies in Prescott, graced the editorial sanctum of the MINER with her presence to-day.

Nearly every day a fresh invoice of fruit on our streets from the Salt River Valley. Ready purchasers are always found to shell out the shekels in exchange for the same, although the prices asked by the itinerant peddlers is as a general thing rather steep.

We are pleased to learn that Judge John Howard of Prescott will be called on to fill a place on the Republican legislative ticket of that county. The Judge is a pioneer of the party in the Territory, as well as a pioneer of the Territory. Always consistent in his politics, always faithful to his friends and party, he could be relied on as a thorough and just law-maker.—Herald.

Rev. J. M. Green, late of the Southern Baptist Theological Seminary, Louisville, Ky., has assumed charge of the Baptist Church here, and expects to make Prescott his home for the next twelve months. Services will be resumed as early as practicable at the Baptist house of worship.

Sheriff Henkle, Supervisor Myers and A. A. Moore returned this afternoon from Chino Valley where they went to inspect the cattle disease now prevailing there. As the result of such inspection they report that out of the hundred bulls originally imported, all but about a score have died, while those which remain are suffering severely from the disease and will doubtless succumb to it. So far nothing definite has been settled as to the nature of the complaint, and public opinion is about equally divided as to whether it is Spanish fever or dry murrain.

Jos. G. Campbell, as President of the Yavapai Stock Growers' Association, to-day called on the Board of Supervisors to secure their assistance in organizing a quarantine against the Spanish fever and to exist at present among the cattle in Chino Valley and vicinity. The disease is very contagious and fatal, and was brought into the County by one hundred blooded bulls shipped recently from Kansas and sold to several of our local stockmen for breeding purposes. The fever is supposed to have been contracted by the imported cattle on the cars while en route to this Territory, and so far nearly a third of their number have succumbed to its malignity. Prompt action should be taken in the premises at once, as the loss sustained would be immense should it ever become prevalent among the cattle of the Territory.

## SCHOOL TRUSTEES.

On Saturday next will be elected three trustees for School District No. 1, in which Prescott is included. The manner in which the public educational interests have been neglected in Prescott is a disgrace and stigma on the intelligence of our citizens. To continue our public schools under the pettiest influence they are now and have for several years been subject to is, in effect, countenancing and encouraging the existence and growth of criminal evils, of which the entire community is cognizant. The evils are glaring, having already been brought to the attention of the public by the last grand jury. To rectify them, energetic and conscientious men should be elected as trustees on Saturday next, irrespective of party, and for the office the MINER suggests such men as N. Ellis, Louis Wollenburg, Gus Rodenburg, J. C. Herndon, P. M. Fisher, Robert Connell, Dan Hatz, G. H. LaBerten and John Raible.

## MILLIGANS—RIFLES.

The base ball game, on last Saturday afternoon in West Prescott, between the Milligan and Rifle base ball clubs, created more interest than any other similar event ever before witnessed in Prescott. The boys were in good trim, and stimulated by laudable ambition to sustain the honor of their respective organizations, strained every nerve to win. Harry Darlington acted as Umpire, and Ed. Horne and C. J. Dyer as Score-keepers. The game occupied two hours and resulted in a victory for the Rifle Club, by the following score, in seven innings:

Rifles—1 0-4-5-0-6-0-16.

Milligans—0-3-6-1-0-3-0-13.

## CHIEF JUSTICE HOWARD.

The term of court which has just closed was, without exception, one of the largest and most laborious ever held in the Third Judicial District. The amount of criminal business disposed of was alike important and immense, yet the manner in which Chief Justice Howard presided over the daily sessions of the Court won for him the highest praises of the bar, the jury and all classes of litigants. His rulings on intricate legal questions and the impartiality displayed by him in all cases was universally commended upon, while his geniality diffused the best of feeling among all who had business before him.

## ANARCHY IN TOMBSTONE.

As we go to press the rumor is afloat on our streets that Acting-Governor Van Arman has received a telegram asking for assistance by the Tombstone authorities, stating that trouble has arisen between the Union and non-Union miners, over the latter going to work for \$3 per day.

In attempting to quell an armed fight which ensued, it is stated, that Sheriff Ward lost his life, while a number of others were killed and wounded.

## MORMONS IN ARIZONA.

The people of the country at large have but a faint idea of the rapidity with which the Mormon population is increasing in Arizona. At the present rate it will not be many years before they will be strong enough to assume political control of the Territory. All the best agricultural lands are being taken up by them, and a steady stream of immigration is constantly pouring in from Utah.—[Albuquerque Journal.]

We have learned that the San Francisco company which a few months since canvassed our Territory for subscribers to their work they called an "Illustrated History of Arizona," have concluded to illustrate their work with common cheap lithographs. This is not right. In their circulars to the public they promised "fine engravings," and should they give lithographs which are for cheaper and not so fine as engravings, none of the patrons would be justified in accepting the work when it is issued.

Specimens of ore of every description are rapidly accumulating at the office of Commissioner Murphy, and that gentleman is enthusiastic over the prospects for a fine Arizona exhibit at the New Orleans World's Fair in December next. No miner or mine owner should neglect sending his contribution towards showing what our Territory can do in a mineral line.

Billy Mulvenon came in last night from Pine Flat and informs us that Mr. Chase will have his mill in operation in a few days. Custom work will be taken and as a result of this good move many promising mines are now being developed and a brighter outlook for this old and famous camp is now noticeable.

The Result of 40 Years Incessant Labor.

The only instrument made in the world that will measure by lenses, every defect of the human eye.

All spectacle wearing people are too prone to accept the first glass that is offered them, that will benefit them. Nothing is so injurious and if followed is as sure to ruin the eyes as the law of nature demands them.

Spare your eyes by having a proper test made. Nearly all eyes are astigmatic to a greater or less degree, and to obtain this with the Hypermetropic Myopia and Presbyopic difficulties common to all eyes has been well nigh impossible with the test case. But by a simple and ingenious arrangement of lenses and globes in this Eye Meter all these defects are disclosed.

Also sole agent for the adjustable pupillary eye glasses made by this company which place the center of the glass exactly opposite the pupil of the eye and prevent any interference with the refraction of light entering the eye.
